

sargent & greenleaf™

ENHANCE SECURITY WITH FLEXIBLE CONTROL.

Motorized Electronic Safe Lock

Model 6123

More than 160 years of engineering excellence went into the creation of the Sargent and Greenleaf Model 6123. Incorporating built-in security features with premium performance and flexible control, Model 6123 delivers the durability and reliability to protect banking and commercial assets.

Features

- **Advanced Security:** A motor-driven lockbolt and built-in features including a relocker and hardened disc in the lock body deliver reliable protection against punch and drilling attacks. The Model 6123 automatically relocks when the door is closed.
- **Greater Management Control:** Single user, dual user, and manager/employee mode options can be simply managed at the keypad.

Model 6123

Protecting assets from high-security government sites to banks to businesses for more than 160 years, S&G continues to set the standard for innovation, security, quality, and trust.

Model 6123 benefits:

- > Three modes of operation: single user, dual control, manager/employee
- > Seven codes available: 1 master, 1 supervisor, 5 user
- > Management reset code
- > Motor-driven
- > EMP-resistant
- > Time delay 1-99 minute
- > Penalty lockout

Control and convenience for greater security.

Keypad control combined with easy one-step operation makes the 6123 Safe Lock Series convenient to use and manage – and also highly secure.

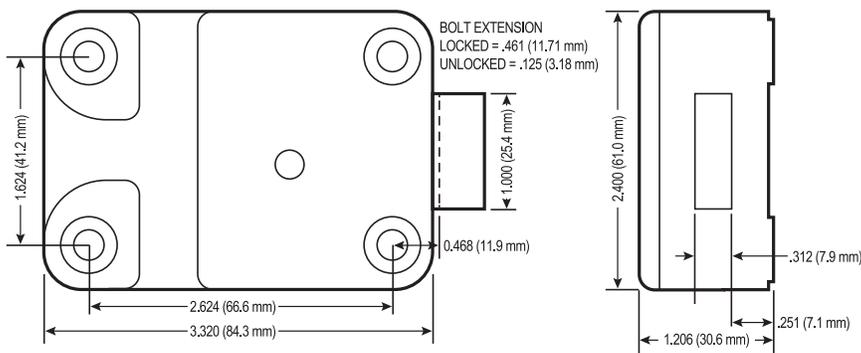

Deadlocking Square Bolt

- Withstands up to 225 lbs. of bolt end pressure for security and durability in boltwork blocking applications

Non-Deadlocking Spring Bolt

- Designed for lightweight and inner compartment doors that require the lock to latch and secure the door
