

AxisBlu™

AxisBlu™ Safe Lock Enabled by Bluetooth®

PROVEN SECURITY TECHNOLOGY
INNOVATION FOR SMART CONVENIENCE

With AxisBlu, you don't have to choose between convenience and security. We combine the latest Bluetooth® technology upgrades with our proven lock body to create a radical new option for safe security—**accessing your safe securely via mobile app.**

FEATURES

- **BLUETOOTH INNOVATION.** The latest Bluetooth upgrades bring the technology up to S&G's stringent security standards. New functionality and multiple levels of authentication in mobile devices make AxisBlu's Bluetooth connectivity a reliable, fully secure method of access.
- **PROVEN SECURITY.** Backed by the proven security of S&G's trusted Titan motorized locking device, AxisBlu adds firmware enhancements for even greater protection.
- **STARTLING CONVENIENCE.** AxisBlu pairs with up to five mobile devices along with ten users—allowing lightning fast Bluetooth access via our AxisBlu app.
- **EASY INSTALLATION.** Although AxisBlu leverages multiple components for added security, we designed the lock for easy installation—matching standard safe lock footprints and machining.

AxisBlu sets the standard for safe security—now and for the future.

Protecting assets from high-security government sites to banks to businesses for more than 160 years, Sargent and Greenleaf continues to set the standard for innovation, security, quality, and trust.

AxisBlu Safe Lock

Put AxisBlu at the center of your safe security.

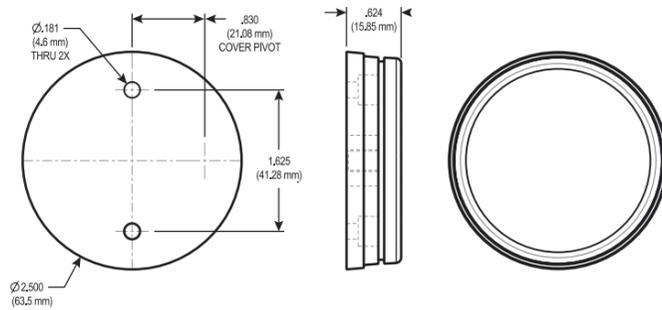

AxisBlu integrates multiple components to deliver enhanced functionality and uncompromised security. Precision engineering provides durability while keeping installation simple.

Modern Aesthetic and Convenient Access

Update the look of your safe with AxisBlu external components.

MODERN MEDALLION

Our sleek, unobtrusive design puts the lock keypad on your mobile device instead of the safe front and gives you immediate access.

ONE-BATTERY KEYPAD

Use the black platinum finish keypad via the Bluetooth app or manually—allowing you to control access for a wider range of operators.

QUICKMOUNT KEYPAD

Also Bluetooth compatible, our Quickmount keypad in black matte finish makes retrofit or installation even easier—and faster than ever before.

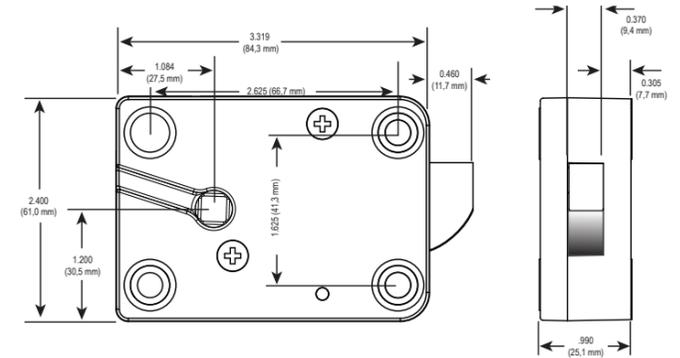

Reliable Security Engineered for Retrofit

Proven mechanical security combines with Bluetooth technology in AxisBlu interior components.

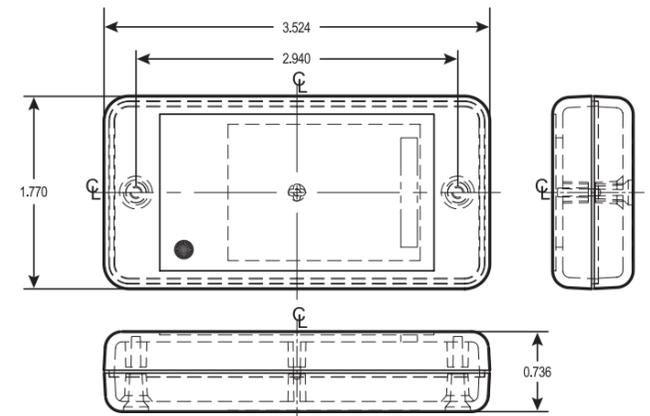

TITAN PIVOTBOLT LOCK

Firmware enhancements allow our proven Titan lock to function securely with a mobile device using Bluetooth technology.

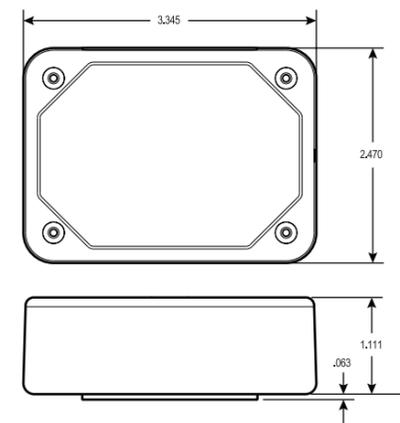

BLUETOOTH ANTENNA

We engineered AxisBlu's Bluetooth module to provide access through the safe door by using the existing spindle hole for wide-range antenna placement. The Bluetooth antenna operates at a range of up to 30 feet.

BATTERY BOX

AxisBlu Medallion Locks use an internal battery box. This component is not required with the keypad kits.

AxisBlu Safe Lock

Future Focused Performance. Proven Security.

Our trusted Titan lock and enhanced Bluetooth technology make AxisBlu a secure way to update the look and operation of your safe.

EMBEDDED PIVOTBOLT LOCK

- Automatic re-locking with fully closed boltwork
- Lock bolt retraction and extension controlled by boltwork movement
- Withstands 225 lbs. of bolt end pressure
- Stainless steel lock bolt

AXISBLU APP

Available for iPhone or Android, our free AxisBlu App allows quick access from mobile devices that support Bluetooth Low Energy 4.2 technology.
